METAL WEEP VENT - A1 NON-COMBUSTIBLE CONCEALED STAINLESS STEEL

A1 Non-Combustible Concealed Stainless Steel Wall Weep for use with Cavity trays directing water out of the wall cavity. Used in cavity situations in multi-storey developments where non-combustible materials are required. Stainless steel Mill finish or available with a variety of textured non-organic baked on colours preventing mortar slip.

5 x 8 mm concealed outlet minimising ingress of nest building insects as described in BS 5250.

Colours include: Natural Mill Finish Stainless Steel, Terracotta, Buff, Black, White, Anthracite & Rust Brown. Specialist colours on request.

Full range of A1 Non-Combustible through wall ventilation products available

Advantage over cast products:
Will not melt and drip molten material onto lower floors during a fire.
